

# REBEL HEART

The name brings forth images. A free spirit, walking a different path, fearlessness, taking a chance.

These are the things we talk about, write about and sing about...and sometimes, just sometimes, a love song to remind us that this whole human life thing is really about LOVE.

Rebel Heart currently finished its studio working of their first EP release, with internationally renowned Rocker, producer and all around mensch, PAUL LAINE.

Master production by renowned Chris Aiken.

## And the music....Well... It's like this

John Mellencamp walks into a bar....And sits down at a table with Steve Earl and the Tragically Hip. They're getting drunk and telling road stories. In the corner Weird Al and Axl Rose are playing pool; Al is kicking Axl's ass (Just sayin') ...And the ghost of Tom Petty is whispering in the ear of Tom Waits who is tending bar.

## The Music...Loud, a bit proud, damn well Unrepentant.

The members of Rebel Heart are proud citizens of the independent republic of Vancouver Island.
